FINE SEWING FURNITURE

## Model 8479

### Description

The 8479 is the tallest cabinet in our line of fine sewing furniture. Specifically designed for a taller person or someone who wants to get into the perfect ergonomic sewing position (36 1/2" tall).

The 8479 gives you the perfect sewing options, complete with swing-up side platform and swing-up table for additional space to hold a second machine, cutting mat, or pressing mat. The 8479 comes with a removable foot control platform so you can position your foot pedal to the correct height.

### Features

- Swing-up table for additional out of the way easy to access work space.
- Easy to access thread pull-out that keeps up to 132 spools of thread at hand.
- Embroidery Module and hoop storage that can be converted into adjustable shelves for storage.
- Cabinet depth of 27" for more knee room and 36 1/2" so you can stand or set at a stool comfortably.
- Extra wide machine cut out that fits most new machines like the Solaris, Luminaire, and 880 BERNINA.
- The 36 1/2" height allows this cabinet to store the Viking Epic Embroidery Module.
- Four soft closing drawers
