PREMIER+ECQ™ SOFTWARE

Drawing Tools

PFAFF® PREMIER+ ECQ™ software is the fast and easy way to get started creating wonderful embroidery designs. Use the built-in drawing tools such as Multiply and see your artistic skills come to life.

Scan

You do the drawing and the software will take care of turning it in to an embroidery design.

Trace

Use a background image to trace for an easy and fun way of creating embroideries or use premade shapes and mini designs to build out your art.

Multiple Formats

The PFAFF® PREMIER+ ECQ™ software saves to multiple file types to work with all compatible embroidery machines, electronic cutting machines, or quilt automation hardware. Formats:
Embroidery: dst, exp, jef, pes, vp3, vp4, xxx
Cutting Machines: dxf, fcm, svg
Quilt Automation:
4qb, cmd, cqp, dxf, hqf, iqp, plt, qcc, qli, txt
Images: jpg, png, svg

Not Just for Embroidery

You've created this wonderful drawing and you want to use it for more than just embroidery, PFAFF® PREMIER+ ECQ™ can not only save your drawing to embroidery but also to an electronic cutting machine, quilt automation device, and also as an image.

MAC® and WINDOWS®

PFAFF® PREMIER+ ECQ™ software works on MAC® and WINDOWS® systems.
