

Whole Home Air Purification

pureAir 3000 is the solution to indoor air quality in homes or offices up to 3000 ft². Using four advanced technologies, pureAir 3000 helps to eliminate odors, smoke, pollen, dust, bacteria, mold, pet dander, viruses, and much more. Noticeable pollution is eliminated in as little as 15 minutes, and the most difficult pollution in as few as 24 hours.

pureAir 3000 destroys pollution from the air, embedded in walls, ceilings, floors, carpets, furniture, clothing, on countertops and other surfaces. These technologies help to sanitize everything in the house and reduces or eliminates all odors, including cigarette smoke, mildew, cooking odors, and more. A small, sleek design makes it an elegant addition to any space, and its convenient remote control allows for simple purification level adjustment.
