

SIMPLIFIED USER INTERFACE

BRAVO OPERATION MADE EASY

From touchscreen compatibility to advanced settings, the BRAVO SUI (Simplified User Interface) is a joy to use. **Contact your BRAVO dealer or order online at ShopMelco.com!**

BRAVO

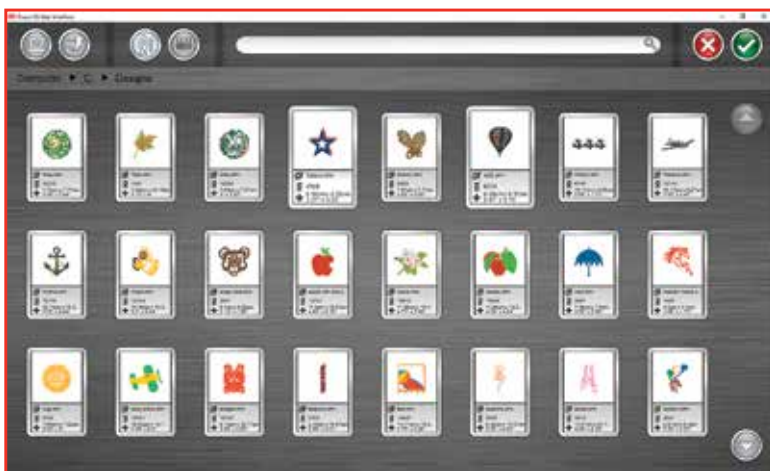

Intuitive Control Panel with Large Buttons and Clear Icons

Colorized machine status indicator (ready, running, stopped) for easy monitoring. Remaining sew time and stitch count are clearly displayed.

Select your preferred sew speed at the touch of a button.

Easy access to advanced machine settings, including bobbin detection.

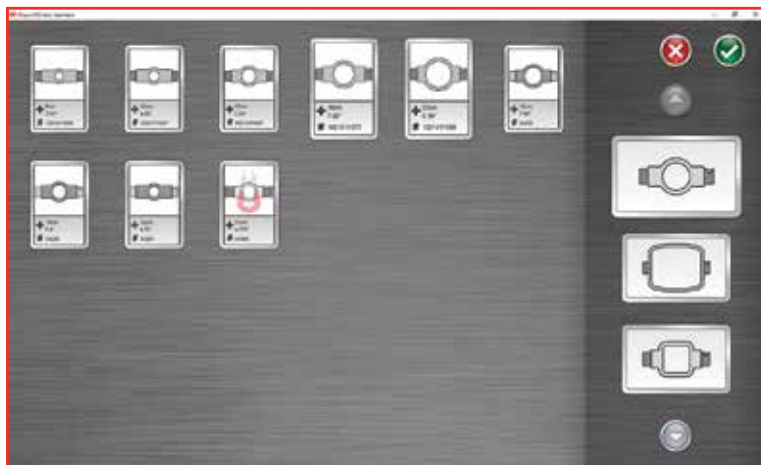

Easily load designs by thumbnail or use the search bar to quickly find your embroidery design.

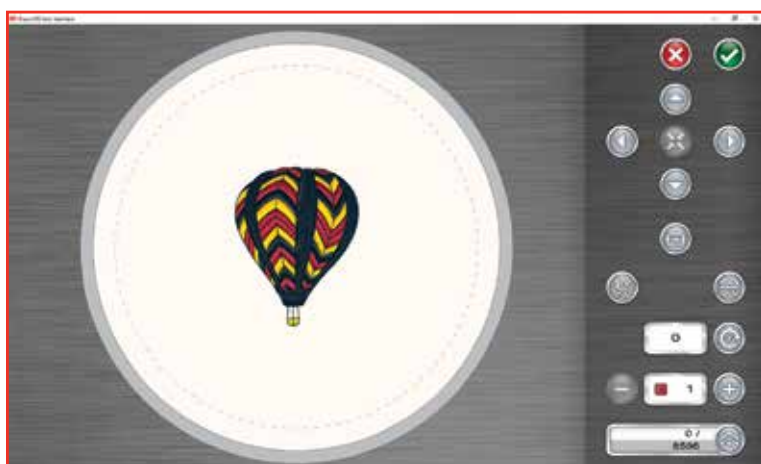

Creating or editing color sequence is a breeze! Thread colors are displayed on a visual representation of the thread tree. If color information is included in the design, that is also displayed and easily configured.

Hoop selection is simple. Browse and choose your hoop using visual icons. BRAVO SUI contains a full catalogue of hoops, frames, and clamping systems, including the popular Melco Fast Clamp PRO!

Selecting Acti-Feed™ settings is a snap. Start with the icon that most closely matches the material type and fine-tune from there. This feature is especially useful for new or novice users.

Large, user-friendly design window allows rotation, positioning and access to colors or a specific stitch within the design.
