

VELOCITY 240IR

SENSOR - DUAL VAPOR GENERATOR

Full of technological features including the sensor steam handle, the Velocity 240IR is an advanced home iron that can take care of the toughest creases while being gentle on delicate fabrics with its eco and turbo settings. The Velocity 240IR's patented built-in steam generator produces up to 55% more steam than traditional steam irons for perfect ironing in less time.

While traditional irons are prone to leaking and spitting, the Velocity irons use a patented 2-heating element and micro-pump technology that pre-heats the water and turns it into steam before it reaches the soleplate. The Velocity 240IR iron will give you perfect constant steam at even the lowest temperatures, yet are 100% safe for all fabrics.
